Subject: DTSC News Feed

DTSC News Feed is a weekly email that pulls together short updates and internet links to keep you informed about the latest accomplishments and news highlights at the California Department of Toxic Substances Control (DTSC).

May 28, 2015

- The U.S. Environmental Protection Agency has selected DTSC for two brownfields assessment grants totaling \$400,000. DTSC will use the money to assess and come up with cleanup plans for sites along the I-710 Corridor, an environmental justice area in Los Angeles County that links the ports of Los Angeles and Long Beach with the rest of Southern California.
- DTSC recently outlined the groundwater cleanup of the Topock Compressor Station site in Needles at a public meeting. The public has until June 4 to submit comments.
- More than 5,100 tons of soil has been removed from properties near the Exide facility in Vernon. Check out the latest numbers on the cleanup.

Archived versions of DTSC News Feed can be found on the department website.
